Y52 Emergency Stop SOP (Document ID: SOP-Y52-ESTOP, Rev.C)

Status: APPROVED & ACTIVE (Supersedes Rev.B)

Procedure: Press red Mushroom button E-STOP. Inverter initiates regenerative ramp stop (rate 6.0 m/s^2) for 1.5 seconds, then engages mechanical disc brake at zero strip tension.

Safety Notice: This procedure eliminates strip tearing risk. Verify tag Y52-SAFE-RELAY continuity before clearing stop alarm.
